

NOTIFICATION

Imphal, dtd. 23/05/2018.

No. 62/98/2017/RT/RE-II/MANIREDA: It is for information to all concerned that the extended project completion timeframe by MNRE, Gol, for ongoing grid connected rooftop & small solar power plant under 70% CFA through MANIREDA, is expiring on 30th June 2018. As per procedural requirement, it is necessary to upload detailed information's of the installed plant including exact GPS co-ordinates of the plant within the dateline, including release of CFA.

MANIREDA, therefore will consider release of CFA, only for those plants, which have submitted necessary project completion documents to MANIREDA (both in hard and soft format) upto working hours of 25th of June 2018. Documents submitted after the dateline of 25th June 2018, shall not be considered for capital subsidy under the present ongoing programme, under any circumstances. This is necessary in view of necessary procedures for site verification and uploading of documents to MNRE portal.

All the channel partners/implementing firm are once again requested to strictly adhered to the above timeline and also ensure submission of complete and correct documents. Any shortages or defects in documentation shall not be eligible for CFA/capital subsidy.

It is suggested to consult and confirm from related officials of MANIREDA(in case of any doubt) before submission of project completion documents.

(L. Manglem Singh)
Director.

Copy to :
